

Production Access Questionnaire

Testers Community

The objective of this report is to provide comprehensive answers that our clients can use to fill the production access form. You can use the answers directly or can make changes based on how you improved the app. After 14 days of testing, users will be prompted to fill a form on closed testing to get access to production. This document can be helpful in answering those questions.

App Name: Bottled Star

App URL:
https://play.google.com/store/apps/details?id=pro.daddoodev.bottledstar

Production Access Questionnaire

1) How did you recruit users for your closed test? For example, did you ask friends and family, or use a paid testing provider?

We used a paid testing provider to conduct extensive testing and gather detailed feedback on the app. Additionally, we reached out to some of our target users, including gamers and physics enthusiasts, to collect real-world insights from the intended audience.

---

2) How easy was it to recruit testers for your app?

Answer: Easy
(You can select your own answer).

---

3) Describe the engagement you received from testers during your closed test

Testers actively engaged with the app, providing valuable feedback on gameplay mechanics, UI enhancements, and overall experience. Their

insights led to crucial adjustments, improving user satisfaction and ensuring a more polished final product ready for launch.

---

4) Provide a summary of the feedback that you received from testers. Include how you collected the feedback.

Feedback highlighted the need for optimized ASO, a "Rate Your App" feature, "Share App" functionality, improved screenshots, and a confirmation prompt for closing the app. We collected insights through surveys, direct communication, and usability testing sessions.

---

5) Who is the intended audience for your app?

Bottled Star targets gamers and physics enthusiasts who enjoy engaging gameplay involving stellar fusion concepts. It appeals to users seeking a unique, educational experience that combines strategy, science, and fun in a captivating mobile format.

---

6) Describe how your app provides value to the users.

Bottled Star offers a unique blend of engaging gameplay and educational content, allowing users to explore stellar fusion concepts interactively.

Players experience dense physics, strategic challenges, and varied endings, making learning about stars both enjoyable and immersive.

---

7) How many installs do you expect your app to have in your first year?

Answer: 10k - 100k
(You can select your own answer).

---

8) What changes did you make to your app based on what you learned during your closed test?

Based on feedback, we optimized the app description for ASO, added a "Rate Your App" feature, implemented a "Share App" option, improved Play Store screenshots, and ensured a confirmation prompt when closing the app, enhancing user experience and visibility.

---

9) How did you decide that your app is ready for production?

After extensive testing and incorporating vital feedback from testers, we ensured the app is stable, user-friendly, and optimized for engagement. The improvements made confirm that Bottled Star is ready for a successful launch on Google Play.

---

10) What did you do differently this time?

This time, we focused on gathering diverse feedback from targeted users, emphasizing gameplay mechanics and UI improvements. We also prioritized ASO optimization and user engagement features, resulting in a more polished app ready for production and user enjoyment.

You can use the above answers or add your personal touch to those answers to make them more natural and meaningful. Don't forget that this form plays the most important role in the entire process of getting production access. If you have any more questions, please feel free to contact us.

Best regards,
Testers Community Team
